## Group #3 (Vanessa D): Focus on Adult Services

- 1. In looking at the key need and gap areas that have been identified so far, are there any, from your perspective, that are missing? If so, what are they?
  - Peer run, peer administration that reflects cultural competency of community being served
  - Prevention: Aftercare (to prevent relapse); education, vocational (supported employment, family involvement
  - Family involvement with aftercare planning; support network
  - Education; close the gap in understanding (mental health recovery process)
  - Better collaboration of agencies to support individual
  - Dynamic web base to support collaboration
  - Psychiatrist on site at residential programs (like Casa Pacific)
  - Work experience; help get back in workforce, resume, mentors, practice interview role play.
  - Gaps in access for substance use disorders
  - Legal assistance; help with/go between public defender. Clients don't understand law, or their rights. Don't rush through the system
  - Mentors: legal, TIC, employment
  - Help navigating the system
  - True supported employment. Department of Rehab takes months; gap while waiting. Engage within 30 days. Job coaching/support.
  - Trauma informed care, education, so volunteers are trained to support/supplement county staff
  - Therapy groups at Mariposa: communication, mindfulness, CBT, medication side effect.
  - More diverse classes at Casa Pacific
  - Co-occurring- only one program and funding ends, and it is only in Couth County.
  - Gaps in treatment, service provider knowledge, police knowledge (psychosis vs. SUD)
  - Concerns people not getting proper meds in jail
  - Lack of collaboration between mental health and police, jail, probation
  - Too few advocates/mentors; more locations; how to find (database) access to information
  - More individualized treatment
  - More bilingual staff
  - Provide slower, more in depth explanation of options
  - How to go through system with support
  - Mental health and substance use disorder collaboration
  - Discharge medication phase (when transitioning residential to independent living)
  - Concerns regarding staff turnover and pay.
  - Restorative justice

- More alternatives to medication: mindfulness, natural sleep, transition/therapy, learn from experiences, education
- Housing, solar back pack for homeless
- Mental health and all agencies need to be on same page

### 2. Which need or gap areas are most important?

- Peer run, peer administration that reflects cultural competency of community being served
- Prevention: Aftercare (to prevent relapse); education, vocational (supported employment, family involvement
- Family involvement with aftercare planning; support network
- Education; close the gap in understanding (mental health recovery process)
- Better collaboration of agencies to support individual
- Work experience; help get back in workforce, resume, mentors, practice interview role play.
- Gaps in access for substance use disorders
- Legal assistance; help with/go between public defender. Clients don't understand law, or their rights. Don't rush through the system
- Mentors: legal, TIC, employment
- Trauma informed care, education, so volunteers are trained to support/supplement county staff
- Therapy groups at Mariposa: communication, mindfulness, CBT, medication side effect.
- Trauma informed care, education, so volunteers are trained to support/supplement county staff
- Co-occurring- only one program and funding ends, and it is only in Couth County.
- More individualized treatment
- More alternatives to medication: mindfulness, natural sleep, transition/therapy, learn from experiences, education
- Housing, solar back pack for homeless

# 3. Which need or gap areas should we focus on working on first?

- Collaboration (agencies, families)
- Individualized treatment (sustaining stability, strength, gains), mentors, families
- Navigation. Availability of information for patients and providers, mentors, families.
- Co-occurring disorders.

### 4. Are there specific need or gap areas that may be unique or different for South County.

• No specific priorities.
